

## **Crockett Early College High School Advisory and Academic Support**

**At Crockett Early College High School, we strive to provide advisement and academic support to our ECHS/P-TECH students in the following ways:**

- All new ECHS/P-TECH students will meet with ECHS/P-TECH Coordinator one-on-one within the first 6 weeks of class to assess progress and develop individualized support plan.
- All students under Satisfactory Academic Progress (set by ACC) will meet with ACC Academic Advisor as well as with ECHS/P-TECH Coordinator to develop semester support plan within first 6 weeks of classes.
- All Seniors will meet with ACC Academic Advisor and ECHS/P-TECH Coordinator one-on-one prior to commencement of their final year in the program to discuss completion plan.
- All ECHS/P-TECH students are grouped into advisory sections, which meet once or twice weekly to discuss progress.
- All ECHS/PTECH students are required to complete a midterm advising form every semester. All students earning below a "C " will meet one-on-one with ACC Academic Advisor as well as ECHS/P-TECH Coordinator to develop a support plan.
- All students have access to the ACC Learning Lab during their course time on Fridays (ACC is not in session), as well as during the regularly provided Learning Lab hours.
- All ECHS students have Academic Support time available to them on Fridays (ACC is not in session). This time can be used to access ACC support services, Academic Advising, and to study/prepare for upcoming course material.
